- 3.3 The quantities of LNG intended for the Service will be delivered after the delivery of the Quantity purchased by OLT under this Contract.
- 3.4 It should be understood that in no case will the Quantity covered by the sale to OLT be destined to the peak shaving service, nor may it in any case be considered or used for fulfilling the obligations taken on by the Seller under the Service Contract. The LNG destined for the peak shaving service, in accordance with the provisions of the Procedure, will therefore be calculated as the difference between the total quantities introduced by the Seller during the DISCHARGE and the Quantity purchased by OLT, with the exception of the quantities destined to the peak shaving service under the Capacity Agreement.

#### 4) **PURCHASE PRICE AND PAYMENT**

- 4.1 OLT undertakes to pay an amount determined on the basis of the P<sub>FOR</sub> for the quarter October 2018 – December 2018, as updated and published by the ARERA pursuant to art. 6.5 del TIVG (hereinafter “**Compensation**”), as compensation for the sale of the Quantity.

#### 5) **RESPONSIBILITIES OF THE SELLER**

- 5.1 If the case of failure to make delivery of the Quantity to OLT in the time provided for the DISCHARGE, the Seller will be considered in breach of Contract and OLT, if the SELLER does not deliver a quantity of LNG equivalent to the Quantity within 10 days after the expected Discharge Date, may procure it directly, with the costs and expenses charged to the Seller.
- 5.2 In the case of failure to make delivery of the Quantity within 10 days after the scheduled Discharge Date, OLT will have the right to procure a quantity of LNG equal to the Quantity directly on the market, declaring expressly that the Seller to be aware that OLT shall purchase on the reference market a quantity of LNG, corresponding to the Quantity, before the end of January 2019 for operating reasons linked to the need to ensure the availability of the LNG regasification service at the Terminal.

5.3 The Seller is aware that, in order to be able to procure a quantity of LNG corresponding to the Quantity, OLT will be obliged to purchase, or have purchased on its behalf, an LNG cargo much greater than the Quantity and, therefore, undertakes to compensate the damage incurred by OLT which, by way of example, will include:

(i) Any greater unit price that may be paid by OLT to the third LNG supplier for a quantity of LNG corresponding to the Quantity not delivered by the Seller;

(ii) the greater costs that may be incurred by OLT for having to procure the LNG on the reference market, including any costs for chartering an LNG carrier, the costs for any brokers that it may use of and, in particular, the purchase price to be paid for the quantities of LNG exceeding the Quantity, remaining however clear that any revenue from the transfer to SRG, as balance responsible entity, of the gas deriving from the LNG purchased (directly by OLT or through a third party broker) and regasified will in any case be deducted from that amount.

5.4 With regard to the quality specifications of the Quantity, the Seller offers OLT the same guarantees that the Regasification Code provides for the users of the regasification service with reference to the LNG that is discharged at the Terminal.

## **6) RESPONSIBILITIES OF OLT**

6.1 OLT is responsible for the payment of the Compensation within the terms and in the ways provided for by this Contract. In the case of late payment, even partial, exceeding 30 days, OLT will be obliged to pay the interest, at the legal rate plus 2%, on the amounts still due.

6.2 Only in the case of late payment of an amount that is equal to 5% of the Compensation and for a period in excess of 30 days the Seller can ask for the termination of this Contract and, in any case, limited to only the part of the Contract corresponding to the Quantity for which OLT has not made the payment, so excluding that the termination of the contract extends to that part of the Quantity for which OLT has paid the Compensation. If the Seller wishes to make use of the right to terminate the contract, it shall give written notice to OLT in accordance Article 1456 of the Italian Civil Code and, at the time of giving notice of the termination, if termination is grounded, the Seller will automatically re-acquire ownership of the LNG Quantity corresponding to the part of the Compensation not paid, with retrospective effect at the time of the Discharge of the LNG, deducting only the quantities corresponding to the consumption and losses, to be reimbursed by OLT to the Seller at a unit price equivalent to the Compensation.

The regasification capacity allocated to the Seller with reference to the LNG that has become its property by effect of notice of the termination of the Contract shall be the first capacity available at the Terminal, subject only to the terms necessary for the Seller to deliver to OLT the necessary documentation to access the regasification service in accordance with the provisions of the Regasification Code and those needed for booking the corresponding gas transportation capacity with SRG.
- 6.4 If, following the termination of the contract communicated to OLT by the Seller, the latter refuses or, in any case, does not provide the necessary documentation to access the regasification service within 30 days, OLT shall be entitled to proceed with regasifying the LNG belonging to the Seller that is present in the Terminal, booking in its name and on its behalf the necessary gas transportation capacity with SRG and debiting the Seller with the related regasification tariff approved by the ARERA, plus every other connected expense.
