

OLT Offshore LNG Toscana

OLT launches the consultation on the proposal to amend the Regasification Code

Livorno, 4th October 2019 - OLT Offshore LNG Toscana informs that starting from 4th October 2019 it is possible to consult, on the website of the company (www.oltoffshore.it), the proposal to amend the Regasification Code previously approved by ARERA with resolution 110/2018/R/gas. The modifications include the clarifications published during the Gas Year 2018/2019 on OLT's website and an higher flexibility for the Terminal Users related to the procedures of the allocation capacity.

Comments to the Regasification Code may be sent within 19th November 2019.

OLT Offshore LNG Toscana S.p.A., is the company that owns and manages the floating regasification Terminal "FSRU Toscana". The Terminal, moored about 22 km off the coast between Livorno and Pisa, is connected to the national grid through a 36.5 km long pipeline, operated and managed by Snam Rete Gas, of which: about 29.5 km at sea, 5 km in the floodway and the remaining 2 km on dry land. At full capacity, "FSRU Toscana" has a regasification capacity of 3.75 billion Sm³ a year, about 4% of the national requirement.
