

OLT Offshore LNG Toscana

OLT publishes the tender Procedure for natural gas auctioning

Livorno, March 13th, 2020 – OLT Offshore LNG Toscana S.p.A. informs that, on March 12th, in the business area of its website, the tender Procedure for the auctioning of an amount of natural gas equal to 101.400 MWh was published. The documents to participate to the tender shall be presented between 9:00 and 12:00 CET on March 20th, 2020, according to the conditions set forth in the Procedure.

For any further information please refer to OLT's website (www.oltoffshore.it).

OLT Offshore LNG Toscana S.p.A., is the company that owns and manages the floating regasification Terminal "FSRU Toscana". The Terminal, moored about 22 km off the coast between Livorno and Pisa, is connected to the national grid through a 36.5 km long pipeline, operated and managed by Snam Rete Gas, of which: about 29.5 km at sea, 5 km in the floodway and the remaining 2 km on dry land. At full capacity, "FSRU Toscana" has a regasification capacity of 3.75 billion Sm³ a year, about 5% of the national requirement.
