**Re: Request of extension of the allocation in exit of the annual and multi-year allocation process with expression of interest**

Whereas:

- a) on May 13<sup>th</sup>, 2022, the company OLT Offshore LNG Toscana S.p.A having registered office in via Passione 8, 20122 Milan, tax registration no. and VAT no. 07197231009 (“Operating Company”), has published the regasification capacity available for the annual and multi-year process with expression of interest;
- b) on June 6<sup>th</sup>, 2022, the Operating Company published the “Procedure for the extension of the allocation related to Product 1 concerning Gas Years 2023/2024-2026/2027”;
- c) in the auction held on June 10<sup>th</sup>, 2022, the Company [•], tax registration no. [•], VAT no. [•], registered in the companies’ register of [•] and having registered office in [•], (“Awardee”) has been awarded Continuous Capacity related to the capacity product concerning Gas Years 2023/2024-2026/2027 (Product 1);

I ....., born on ...../...../....., tax registration no ....., resident in ....., in my capacity as legal representative or duly empowered person, in the name and on behalf of the Awardee [•], hereby requires the extension of the allocation of Continuous Capacity to the following Gas Years:

Gas Year

I hereby declare that:

- i) the extension to the Gas Year 2022/2023 will be at the same allocation price of the Product 1 while the extension for the years following the Gas Year 2026/2027 will be at a price equal to the higher of the Product 1 allocation price and the reserve price for the allocation of the first capacity step for those Gas Years the Awardee has requested the extension;
- ii) the regasification capacity shall be equal to that for which the Awardee was awarded in relation to Product 1;
- iii) whereas the overall requested regasification capacity for the Gas Year 2022/2023 is higher than the available one it will be distributed in proportion to the received requests and, in the event of capacity not divisible proportionally among the applicants, the following priority criteria will be applied to the residual not proportionally allocated capacity: a) the subject who has been awarded the higher Continuous Capacity; b) among the subjects that has been awarded the same Continuous Capacity,

- the subject who firstly requested the extension of the allocation. The Awardee accepts from now on that as a result of the priority criteria described above, in relation to Gas Year 2022/2023, it may be awarded Continuous Capacity lower than the one it was awarded in relation to Product 1;
- iv) all the fees and obligations referred to in the Regasification Code will be applied to the Continuous Capacity allocated to the Awardee in relation to Product 1 and to the Continuous Capacity that will be eventually allocated to the latter as a result of this request, that is therefore an integral part of the only Capacity Agreement signed between the User and the Operating Company;
  - v) whereas in exit of the extension of the allocation the Awardee shall update its Financial Guarantees, the latter shall be provided not later than June 24<sup>th</sup>, 2022, otherwise the request of extension of the allocation will be cancelled.

Yours sincerely,
