

Procedure for the extension of the allocation related to Product 3 concerning Gas Years 2027/2028-2032/2033

The subjects that in exit of the annual and multi-year allocation process with expression of interest held on April 20th, 2023, are awarded of Continuous Capacity related to the capacity product concerning Gas Years 2027/2028 2032/2033 (Product 3) shall request the extension of the allocation in case of still available capacity.

The request of extension may refer to the Gas Year 2033/2034 or to one or more consecutive Gas Years preceding the Gas Year 2027/2028 and up to the Gas Year 2024/2025.

Extension of the allocation

The request of extension shall be provided through e-mail at commercial@oltoffshore.it by **May 5th, 2025**, by using the” *Form for request of extension of multi-year allocation*” reported below. Any request received after such deadline or drafted in substantially different manner will not be considered by the Operating Company.

The extension of the allocation will be at the same allocation price of the Product 3 and the requested regasification capacity shall be equal to the one each user was awarded in relation to Product 3.

Whereas the overall requested regasification capacity is higher than the available one after the allocation procedures referred to in Products 1 and 2, it will be distributed in proportion to the received requests of extension and, in the event of capacity not divisible proportionally among the applicants, the following priority criteria will be applied to the residual not proportionally allocated capacity:

- a) the subject who has been awarded the higher Continuous Capacity;
- b) among the subjects that has been awarded the same Continuous Capacity, the subject who firstly requested the extension of the allocation.

Whereas in exit of the extension of the allocation the awardee shall update its Financial Guarantees, the latter shall be provided not later than May 31st, 2023, otherwise the request of the extension of the allocation will be cancelled. In such case, where one or more requests for the extension of the allocation have not been fully met, the capacity made available as a result of the non-update of the Financial Guarantees will be allocated according to the criteria and priorities described above.
