OLT Offshore LNG Toscana

OLT: extraordinary maintenance to take place in March

Livorno, February 19, 2024 – OLT Offshore LNG Toscana informs that the FSRU Toscana terminal will undergo the announced extraordinary maintenance period on March 1st, 2024. The maintenance activity is expected to end by October 31, 2024. During this period the regasification service shall be interrupted.

OLT Offshore LNG Toscana, a company controlled by Snam and Igneo Infrastructure Partners, owns and manages the floating regasification Terminal "FSRU Toscana". The Terminal, moored about 22 km off the coast between Livorno and Pisa, is connected to the national grid through a 36.5 km long pipeline, operated and managed by Snam, of which: about 29.5 km at sea, 5 km in the floodway and the remaining 2 km on dry land. FSRU Toscana has a maximum authorized regasification capacity of 5 billion Sm³ a year.
